Author(s): Teamp u, Gelu

Abstract:

This article presents an insight into the relations two of the main genres in popular literature, namely science-fiction and fantasy, establish with the medium of comic books. In the first part of the article these two genres are put face-to-face, as well as important differences between them, which are necessary in any discussion on the topic, are exposed. The second part of the article investigates the approach to the same major issues is similar, and although they address almost the same public, the main difference is in their dealing with science and technology, respectively with magic. The second part of the article investigates the trends in science-fiction and fantasy trends in comic books, as well as occasional symbioses of the two genres. The most interesting works in the field are not just good entertainment products or works of art, but they are relevant from political, social and philosophical points of view.
