## Current topics in nutrition and disease. Volume 1. Bone loss: causes, detection, and therapy.

Author(s) : [Albanese, A. A.](#)

Author Affiliation : Nutrition and Metabolic Research Division, Burke Rehabilitation Hospital, Westchester County Hospital, Valhalla, NY, USA.

Book : [Current topics in nutrition and disease. Volume 1. Bone loss: causes, detection, and therapy.](#) 1977 pp.x + 209pp.

Abstract : "This monograph constitutes an effort to review the available knowledge on calcium metabolism and to evaluate the clinical usefulness of new parameters of calcium metabolism."

management of problems of skeletal and alveolar bone loss." Thus the author  
"It is the purpose of this volume to record the new developments and to clarify  
that adult osteoporosis, like vitamin D deficiency rickets, may soon come to  
a bone disease of nutritional origin." Unfortunately the author does not succeed  
clarifying his views. The arguments are not well presented and the conclusions  
shrouded in contradictory findings. There are many better accounts of bone  
and metabolism. To make matters worse, proof-reading has been deplorable  
pages are marred by frequent misspellings and grammatical errors. D.L. Du
