Author(s): BAK, EMILIA NOELLE

Abstract:

Today the figure of the bride in media feels ubiquitous, but this article examined the bride in a time long before Bridezillas, or Brides magazine, a time when women were expected to marry, the nineteenth century. The top of the nineteenth century was the women's magazine Godey's Lady's Book, a publication that offered women a culture when they were supposed to be confined to the domestic sphere. The magazine was published from 1830 to 1860. It offers interesting and sometimes surprising insights about the societal importance and value of being a bride. In a study drawing upon feminist media studies, the entire run of Godey's Lady's Book was analyzed in order to understand how media, especially media targeted at women, have historically portrayed the figure of the bride.
