## Rice: chemistry and technology.

Author(s) : [Champagne, E. T.](#)

Author Affiliation : Southern Regional Research Center, Agricultural Research Service, United States Department of Agriculture, New Orleans, Louisiana, USA.

Editors : [Champagne, E. T.](#)Book : [Rice: chemistry and technology](#) 2004 No.Ed.3 pp.640 pp. ref.many

Abstract : This book presents comprehensive overviews covering topics ranging from the rice plant and varieties to rice structure and composition, and the functional components. Postharvest processing technologies for drying, storage and processing, and those for making traditional and new value-added products are discussed in detail. Nutritional findings are also presented.

ISBN : [1891127349](#)

Record Number : 20053047364

Publisher : [American Association of Cereal Chemists](#)

Location of publication : [St Paul](#)

Country of publication : [USA](#)

Language of text : [English](#)

Language of summary : [English](#)

Indexing terms for this abstract:

Organism descriptor(s) : *Oryza*, *Oryza sativa*

Descriptor(s) : chemical composition, crop production, crop quality, cultivars, dry nutritive value, plant composition, postharvest treatment, processing, rice, storage

Identifier(s) : chemical constituents of plants, cultivated varieties, nutritional value for nutrition

Broader term(s) : Poaceae, Poales, commelinids, monocotyledons, angiosperms Spermatophyta, plants, eukaryotes, *Oryza*
