A guided tour of veterinary anatomy: domestic ungulates and laboratory mammals.

Author(s) : [Smallwood, J. E.](#)

Author Affiliation : Department of Anatomy, Physiological Sciences and Radiology, North Carolina State University, Raleigh, NC, USA.

Book : [A guided tour of veterinary anatomy: domestic ungulates and laboratory mammals](#)
1992 pp.390 pp. ref.many

Abstract : This book is intended to serve as a guide for first-year veterinarians in their dissection and comparative anatomical study of the horse, cattle, goat,

pigs and laboratory mammals. Detailed instructions for dissection are provided as a reference to applied anatomy. The first chapter is an introduction to veterinary anatomy, then follow chapters dealing with the neck and shoulder; thorax; abdomen; reproductive organs; tail, pelvic wall and pelvic limb; tarsus; forelimb; carpus and digit; the head, and laboratory mammals. Numerous drawings and radiographs are included and selected points of importance are emphasized in bold print. There is also a subject index.
