Knowledge Economy

## [-] Abstract and Keywords

The process of knowledge production exhibits a very di  
geography is fundamental, not incidental, to the innova  
innovation properly if one does not appreciate the cent  
process. The goal of this article is to demonstrate why t  
the subnational scale play a key part in producing and r  
article addresses four key issues. First, it looks at the re  
activity. Second, it turns to examine regional innovatio  
and circulating new knowledge leading to innovation. T  
regional systems of innovation and institutional framev  
between local and global knowledge flows is examined
