Tobacco or health: a global status report.

Author(s) : [World Health Organization](#)

Book : [Tobacco or health: a global status report](#). 1997 pp.xi + 495 pp. ref.

Abstract : The current situation of the tobacco epidemic is reported for 190 countries. Trends over the past two decades are also presented and discussed. The report is divided into two parts: the first part provides a global overview of the current tobacco or health situation, including: types of tobacco products; smoking prevalence; tobacco consumption; tobacco industry; health effects; tobacco control measures; and conclusions. Part two provides facts and statistics profiling the tobacco situation in 190 countries. Each country profile looks at: socioeconomic situation; health status; tobacco production, trade and

tobacco consumption; prevalence of tobacco use by age group and sex and population subgroups; mortality from tobacco use; and specific control measures in effect.
