Modern weed management with special reference to agriculture in the tropics and subtropics: a text book and manual.

Author(s) : [Gupta, O. P.](#)

Book : [Modern weed management with special reference to agriculture in the tropics and subtropics: a text book and manual](#) 2002 pp.510 pp.

Abstract : A manual on weed management in the tropics is presented. Subtopics include: (1) weed-crop competition; (2) the propagation, dispersal, and persistence of weeds; (3) the classification and distribution of weeds; (4) weed prevention; (5) cultural control.

chemical and biological control of weeds; (6) classes of herbicides and their methods; (7) herbicide application equipment and its calibration; (8) herbicide chemistry; (9) absorption and translocation of herbicides; (10) modes of action of herbicides in plants; (11) herbicide selectivity; (12) adjuvants, such as surfactants, stabilizing agents, coupling agents, humectants, deposit builders, activators and control agents; (13) adsorption, movement, decomposition and persistence in soils; (14) plant, environment and herbicide interactions; (15) weed management practices in vegetables, plantation crops and field crops such as rice, wheat, groundnut, soyabean, sugar cane, cotton, tobacco, and lucerne; (16) non-chemical control; (17) specific weeds such as *Imperata cylindrica*, *Sorghum halepense*, *Orobanche* spp., *Opuntia dillenii*, *Eupatorium odoratum* and *Cyperus* spp. ; (18) herbicides on agricultural technology; (19) field research with herbicides; and herbicide production, marketing and use in India. KEYWORDS: TROPAG | *Imperata cylindrica* | *Sorghum halepense* | *Striga* | *Orobanche* | *Eupatorium odoratum* | weed control | research | weeds | chemical control | sprayers | herbicide teaching materials | INDIA.
