Reproduction in mammals and man.

Foreign Title : La reproduction chez les mammifères et l'homme.

Author(s) : [Thibault, C.](#) ; [Levasseur, M. C.](#)

Editors : [Thibault, C.](#); [Levasseur, M. C.](#)

Book : [La reproduction chez les mammifères et l'homme](#) 2001 pp.928 pp. ref.m

Abstract : This large and comprehensive multiauthor volume is a new edition that first appeared in 1991. It contains much new material, particularly on molecular biological aspects of reproduction. The original chapters on cell biology, growth receptors and transgenesis have been completely rewritten, and there are new chapters, such as those on cloning and the relationships between reproduction and metabolism. The bibliographical references to the 40 chapters have been reviewed and updated. The book contains reviews and papers which represent significant advances in knowledge on

Eight of the chapters have appendices presenting additional material, and the subject index.

Indexing terms for this abstract:

Organism descriptor(s) : mammals, man

Descriptor(s) : animal cloning, cellular biology, genetically engineered organisms, molecular biology, reproduction, transgenic animals, transgenics

Identifier(s) : cell biology, genetically engineered animals, genetically modified animals, genetically modified organisms, GEOs, GMOs, transgenic organisms

Broader term(s) : vertebrates, Chordata, animals, eukaryotes, Homo, Hominidae, mammals
