### Description

This bibliography lists literature dealing with the concept of community stability,

the condition of forest-based communities, and the relations between forest management and local community conditions. Most citations are from the 1970s to the mid 1990s, though some particularly pertinent earlier works also appear. The emphasis is on forest-based communities in the Pacific Northwest, but citations from across the United States and other industrialized nations, such as Canada, New Zealand, and the Scandinavian countries, also are included.

## Publication Notes

- You may send email to [pnw\\_pnwpubs@fs.fed.us](mailto:pnw_pnwpubs@fs.fed.us) to request a hard copy of this publication.
- (Please specify **exactly** which publication you are requesting and your mailing address.)
- We recommend that you also print this page and attach it to the printout of the article, to retain the full citation information.
- This article was written and prepared by U.S. Government employees on official time, and is therefore in the public domain.
