SUMMARY

This collection of essays puts into dialogue the ethical philosophy of Emmanuel Levinas with a variety of English and rabbinic writings from the Middle Ages, when literature was regarded as ethical discourse, and reading itself, when rightly performed, was seen as a moral act.

Levinas and Medieval Literature takes the unique approach of connecting Christian allegory, talmudic hermeneutics, and Levinasian interpretation. Levinas's philosophy illuminates what it means to classify medieval texts as profoundly ethical; and the medieval works, in their auralty, fragmentation, and layered narrative structures, provide a crucial context for understanding Levinas's "difficult reading" and his underappreciated aesthetics.
