# The Design of Book Inquiring System

GUO Zhan-xiang(College of Computer Science and Technology,Inner Mongolia Un  
Nationalities,Tongliao 028043)

Presently,most book inquiring systems use the traditional manual management,which is of poor efficiency.Bu  
ement technique,adopting FoxPro6.0 data base exploitation software,we can design an effective book inquiring sys  
or designs three modules,which includes "login module"," inquiry module " and " report form module ",by using  
report" and linking "form" and "menu" by writing program code with FoxPro6.0.Then,the feasibility of it is verifie  
nce of Three Kingdoms".It provides a reference for establishing book inquiring systems and improving the efficien
