Biotechnology. Biological agents, technology, equipment

Author(s) : [Viestur, U. E.](#) ; [Shmite, I. A.](#) ; [Zhilevits, A. V.](#)

Book : [Biotechnology. Biological agents, technology, equipment.](#) 1987 pp.263 p

Abstract : This book includes sections on the following topics: genetic engineering; biotechnology; biotechnology of human and animal cells; biotechnology of plant cells; energy transformation; bioconversion of lignocellulose and starch-containing materials and wastes; methane fermentation of farm wastes; feed protein from waste; juice and protein coagulate from herbage; immunobiotechnology; bacterial fermentation; plant protection materials; biogeotechnology (bacterial leaching, oil and mineral recovery) and bioengineering (processes, fermentation, etc.). A brief English summary is provided for each chapter.

Record Number : 19901357200

Publisher : Zinatne

Location of publication : Riga

Country of publication : Latvian SSR

Language of text : Russian

Language of summary : English

Indexing terms for this abstract:

Descriptor(s) : Agricultural wastes, bacterial leaching, biological treatment, biotec

Cellulose, methane production, Minerals, production, proteins, Starch, Wastes

Identifier(s) : farm wastes
