Canadian beetles (Coleoptera) injurious to crops, ornamentals, stored products, and buildings.

Author(s) : [Campbell, J. M.](#) ; [Sarazin, M. J.](#) ; [Lyons, D. B.](#)

Book : [Canadian beetles \(Coleoptera\) injurious to crops, ornamentals, stored products and buildings.](#) 1989 pp.491 pp. ref.56 pp. of

Abstract : This book provides a comprehensive inventory of the species of beetles that have been reported as agricultural, ornamental, stored-product and noxious pests in Canada, or that have been reported as pests elsewhere and are known to be pests in Canada. Forest pests are not included except where they damage furniture

timbers in buildings. In addition, species frequently intercepted at ports of e are not included unless they are known or suspected to be established in C species are arranged alphabetically within each family of Coleoptera with de English and French common names if known and synonyms where applicab is presented on the Canadian distribution, economic injury, and in some cas (including natural enemies where known) of each species. For those specie known, or suspected, to have been introduced into North America from els origin is discussed. The book is intended to provide entomologists, pest co researchers, agriculturists and students with a compendium of essential inf the actual or potential pest species of beetles known to occur in Canada.
