 **Economics of development.**Author(s) : [Gillis, M.](#) ; [Perkins, D. H.](#) ; [Roemer, M.](#) ; [Snodgrass, D. R.](#)Book : [Economics of development.](#) 1992 No.Ed. 3 pp.xvi + 635pp.

Abstract : This book is a general text concerned with the problems of economic development. It aims to make extensive use of the theoretical tools of classical and neoclassical economics in order to help contribute to the understanding of the factors surrounding economic development, but also seeks to draw on decades of empirical study. It considers the experience of developing countries in relation to topical issues, including: China, the Korea Republic, Brazil, Sri Lanka, India, Kenya, Tanzania, Colombia, Peru, Malaysia and Mexico. Part 1 of the book introduces the concept and measurement of development, some theories developed to explain it, and the use of data that has been amassed to recognize and define development when

It also includes a chapter on market versus controls as the means of guiding  
Part 2 deals with the contribution of human resources to development, including  
on population, labour, education and health. Capital, the other main physical  
growth process, is the subject of part 3, dealing with savings and investment  
financial policy, foreign aid and investment. The opportunities provided by  
trade are considered in part 4, and part 5 applies the ideas developed in each  
to the major sectors of the economy: agriculture, natural resources, and industry.
