## Schalm's veterinary hematology.

Author(s) : [Jain, N. C.](#)

Author Affiliation : Sch. Vet. Med., Univ., Davis, CA 95616, USA.

Book : [Schalm's veterinary hematology](#). 1986 No.Edition 4 pp.ix + 1221pp.

Abstract : This is without doubt the world's leading textbook on the haematology of domestic animals, a fact reflected in its price (equivalent to about #96). The 4th edition of 1975 was still produced by the late Prof. Oscar W. Schalm of The University of California, Davis (Clinical Pathology, California School of Veterinary Medicine, assisted by Dr. E. J. Nisbet (who also deceased) and Dr. Jain, both of the same Department. Dr. Jain has subdivided the previous 14 unwieldy chapters into 36, with separate chapters for dog, cat, sheep, goat, pig and poultry. There are now 25 colour plates instead of 20. The numbers of references to the literature had been updated to about 1983. A

size is a considerable achievement for a single author. The increasing complexity of the subject may require multiple authorship for a future edition.
