Women and HIV / AIDS: an international resource book. Information, action and resources on women and HIV / AIDS, reproductive health and sexual relationships.

Author: Berer M; Ray S

Source: London, England, Pandora Press, 1993. [12], 383 p.

Abstract: Human immunodeficiency virus (HIV)/acquired immunodeficiency syndrome (AIDS) was finally granted international acknowledgment as a major women's issue in the late 1980s. There remain, however, inadequate linkages between HIV/AIDS work and the broader women's health movement. This edited anthology represents current knowledge and experience of HIV/AIDS from a women-centered perspective and emerged from collaboration among activists in developed as well as developing countries. Summaries of factual information on the salient medical and social issues are intermingled with descriptions of AIDS prevention campaigns, personal histories of women living with HIV, examples of women-centered grass-roots organizing, and reproductions of graphics used in mass media campaigns. Included at the end of the volume is a listing of groups, organizations, and resources. Subsidized distribution of the resource book will take place in developing
