Title: Fundamentals of Neurology: An Illustrated Guide; Second Edition.

Authors: [Mattle, Heinrich](#)
[Mumenthaler, Marco](#)

Keywords: Medicine;Neurology;Inflammatory disease;Illustrated Guide

Issue Date: 2017

Publisher: Thieme

Citation: Second edition

Abstract: The second edition of this practical guide provides a thorough introduction to the essential concepts of clinical neurology. Coverage includes history-taking; the neurological examination and ancillary tests; topical diagnosis and differential diagnosis of typical syndromes; the diseases of the central nervous system, peripheral nerves, autonomic nervous system, and muscles; epilepsy; and inflammatory diseases such as multiple sclerosis. Central to the book are the lucid structuring of complex contents allowing efficient learning, even without prior knowledge of the subject; and the vital link between theory and clinical practice, with essential information on history-taking, the clinical examination, and additional tests, all supported by informative graphics and appropriate computed tomography or magnetic resonance imaging studies.
