## Descriptions

**Attribute Name**    **Values**

**Creator**            [Avery, Bonnie E.](#)

**Abstract or**        The Lakes Basin Bibliography consists of over 600 references

Summary Attribute Name	Values
	relating to the natural resources of Oregon's Lakes Basin. Forty percent of the items listed are available to anyone online though not all links are persistent. The remaining sixty percent are held in at least one library either in print or via subscriptions to e-journal content. This set is organized in groups related issues associated with digitization and contribution to an institutional repository such as the ScholarsArchive@OSU which provide for persistent URLs. Also identified are "key" documents as identified by Lakes Basin Explorer project partners and topical websites.
