**Abstract :** This monograph analyzes the history of United States Army leadership doctrine from 1983 through 2011 to identify the evolution of strategic leadership theory and practice in Army doctrine. Using leadership doctrine, the focus is on the analysis of the articles, reports,

opinions, studies, and research papers surrounding each doctrinal publication. This research uses an analytical approach across the timeline of leadership doctrine by understanding each approved doctrine, reviewing the intellectual debate within the Army institution and across other leadership disciplines, examining the doctrinal changes in the published documents, and exploring the future of proposed strategic leadership doctrine.
