Abstract

The Handbook of Research on Strategy Process reveals the current state of the art of strategy process research as a whole as well as emerging research initiatives. It also discusses managerial and organizational factors affecting strategy implementation. Written by a blend of both leading researchers in the field and younger, emerging scholars, this insightful Handbook explores new directions in strategy process research. The authors examine family businesses, non-family firms, educational institutions, and government organizations and provide contextualized accounts of strategy process in spe
