Fyodor Dostoevsky a Psychopathographical Sketch

Paul C. Squires, Ph.D.

I. Introductory

Unrivaled in the rare art of portraying the anomalous, the recondite, the essentially symbolic a conduct and personality with realistically convincing power, Fyodor Dostoevsky stands out as the burdened of all pathological men of genius. In the case of no other writer are the creations so unm projection of the man himself.

The central phenomenon from which all the other manifestations of his life and works radiate constitution. It is our purpose to make exhaustive examination of this and endeavor, through a cor analysis of the original evidence and the critical literature upon the subject, to arrive at decisive cli For there is still, be it said, considerable controversy as to the precise nature and interpretation of I disorder.

Especially does the question continually arise, Was he the victim of so-called genuine or idiop And then, How far do hysterical traits enter into the picture? What about traumatic, affective, reacti Moreover, Did a schizophrenic condition play a determinative role? We have every confidence tha together with their cognates, can today be solved in a satisfactory manner. The present study, we tr one more contribution to that tremendously stimulating and important program of research formu brilliantly by Lange-Eichbaum (21).

II. Historical Resume

Dostoevsky's letters (1, 3) and works (5, 6, 7, 8) are, of course, fundamental means for obtaining mental status and organization.

The diary of his wife (2) and her reminiscences (3) are absolutely essential documents, quite n
