How to Read Art. A crash course in understanding and interpreting painting.

Rideal, L; (2015) How to Read Art. A crash course in understanding and interpreting painting. Rizzoli/Univers

Full text not available from this repository.

Abs

This charmingly illustrated, highly informative field guide is a pocket yet serious enough to provide real answers. This is a one-stop guide to understanding the world's great art and painting from the Renaissance masters and Impressionism. It develops swiftly an understanding of the vocabulary of painting in detail. In the first part of the book, the author reveals how to identify and support, style and medium, compositional devices. The second part explores fifty paintings through extracts and training the reader and viewer to understand context and meaning. It is a perfect companion for anyone interested in paintings and art history.

Type: Book
