[Abstract](#)

Prepared by recognized scholars and devoted teachers, The Bedford Anthology of American Literature brings the canon of American literature down to a manageable size. Half the length of other leading anthologies, and offered at a much lower price, the anthology reflects years of firsthand experience in the classroom and extensive research on what instructors are actually teaching in the survey course today.

Prepared expressly for students and informed by the new understandings of and approaches to American literature that have emerged during the last 30 years, the anthology is lavishly illustrated and features several pedagogical innovations that help students engage with the literature.
