

Economic Education in England

Ian Abbott

Over recent years Economics as a separate subject has been in decline in England. Business Studies has Business Education is now more commonly used, in schools and colleges, to describe this area of work developments in the subject area and opportunities for further development. Particular emphasis is placed on the wider 14-19 curriculum and the prospects for future growth. The division between academic and vocational education is emphasised with consideration given to the recent reform of the post-16 curriculum in England. The training and implications arising from an increasing demand for teachers of Business Education is discussed.
