Identifying the origins of major Mitchell's

quotations, references and footnotes in his "three expeditions into the interior of Eastern Australia..."

Globe, The
Issue 79 (2016)

Eccleston, Gregory C¹

Abstract: Thomas Mitchell's famous book *Three Expeditions into the Interior of Eastern Australia* published in two volumes in 1838, with a second edition in 1839, contained 200 pithy quotations, references and footnotes, reflecting the writing style of the time. Identifying the origin of a number of these was a challenge, undertaken in the days before search engines became ubiquitous. Even now, some of the more obscure quotations have been difficult to identify. This short paper looks at seventeen interesting items.
