## Remark:

First published in smaller form in 1939. The flyleaf of the dust-jacket proclaims this An Anthology of Football Humor. This book has come up regularly in my eBay searches. I include it now for two reasons in this collection. First, the listing will prevent me from buying a second copy. Secondly, this book will serve as an extreme example of how widely the term fable is used these days. Knute Rockne is on 13, and the four horsemen make their appearance on 69. Go for it, football fans!
