 [Encyclopedic dictionary of genetics.](#)Author(s) : [King, R. C.](#) ; [Stansfield, W. D.](#)

Author Affiliation : Northwestern University, Evanston, IL, USA.

Book : [Encyclopedic dictionary of genetics.](#) 1990 pp.809 pp.

Abstract : This dictionary, which is based on an English language equivalent, contains more than 6000 definitions from classical and modern genetics, accompanied by diagrams, tables or chemical formulas where appropriate. Whenever possible, German term equivalents are given in the explanation. The dictionary can be traced through a German/English index in part II which covers valuable references as well as terms that are virtually identical in both languages, and provides useful references to allied concepts.
