Book : [The review of natural products: the most complete source of natural product information](#) 2002 No.Ed. 3 pp.xii + 869 pp. ref.Many

Abstract : This book is intended as a reference guide to plants and dietary ingredients widely used in medicine, for use by practicing health-care professionals. The book provides an overview of the historical and epidemiological data, the complex

alternative medicine (CAM) movement, the Dietary Supplement and Health Education Act (DSHEA) of 1994 (USA), and brief coverage of botany and pharmacology. The book comprises over 300 peer-reviewed monographs on natural products, including scientific and common names, with sections on botany, history, chemistry, pharmacology, interactions, toxicology, and a summary. Patient information includes medicinal herb interactions, side effects, and, where appropriate, dosing. A number of new monographs are included in this third edition. The appendix includes information on evidence-based herb-drug interactions, potential drug interactions with St. John's Wort (*Hypericum perforatum*), herbal diuretics, mushroom poisoning, mushroom identification, Poison Control Center hotline, scientific and trade organizations, and source information on natural products.
