**Boost Your Nursing Career with This Insightful Guidebook**

**That Takes You Through the Essential Steps of Presenting and Publishing!**

Written for every nurse, *A Nurse's Guide to Presenting and Publishing* is a resource for baccalaureate, graduate students, a companion text for professional development, or a handbook for small groups in practice settings. Text in this book have helped hundreds of students, staff nurses, advanced practice nurses, and nurse managers to act and dare to share their experience with others. Now you can learn to do the same!

Meant as a portable mentor, the first section in this guidebook introduces you to all four steps:

• *shift in perspective* – see yourself as creative

• *self-reflect* – explore your “inner landscape”

• *strategies and skills* – practice the techniques and tools

• *support circles* – develop mindful relationships with colleague-friends

For the first time ever, these evidence-based steps are contained in one book!

## Features & Benefits

---

### KEY FEATURES:

For the first time ever, four evidence-based strategies for presenting and publishing success are contained in this guidebook:

- \* Shift in perspective – see yourself as a presenter and/or author
- \* Self-reflect – explore what helps and hinders dare-to-shares
- \* Strategies and skills – practice these small steps one-by-one
- \* Support circles – reach out and ask for help:

Meant as a portable mentor and written for busy nurses, chapters are 3 – 5 pages **short** and:

- \* Start with a story or a survey
- \* End with an application exercise
- \* Use examples from nurses' everyday practice
- \* Share insights from cutting-edge research and literature
- \* Offer advice from expert presenters, authors, and editors
