Article

### Publication Date

1999

### Abstract

Through its grants, the National Science Foundation sponsors a workshop on the development of a new faculty of current topics in Computer Science. Such a workshop is designed to develop Multimedia-based Interactive Laboratory Modules for Computer Science. The workshop was held July 27 - August 6, 1998, at Illinois State University in Normal, IL. This document describes what some of the faculty members who participated in the workshop have done with the knowledge obtained from the workshop.
