Description

Title:	Applications of microcomputers in libraries
Author(s):	Woods, Lawrence A.
Subject(s):	Libraries --Automation Library science --Data processing Information technology
Abstract:	Five years ago it was predicted that microcomputers would take the library world by storm. As a matter of fact, this has not happened. Rather, there has been a steady, but quiet, grassroots movement introducing

microcomputers not only into traditional areas of library automation, but into areas dial previously have had only minimal impact from the electronic revolution.

Issue Date:	1981
Publisher:	Graduate School of Library and Information Science. University of Illinois at Urbana-Champaign
Citation Info:	In New information technologies--new opportunities: Papers presented at the 1981 Clinic on Library Applications of Data Processing. Ed. Linda C. Smith. Urbana, Il: Graduate School of Library and Information Science: 28-42.
Series/Report:	Clinic on Library Applications of Data Processing (18th : 1981)
Genre:	Conference Paper / Presentation
Type:	Text
Language:	English
URI:	http://hdl.handle.net/2142/1125
ISBN:	0-87845-066-1
ISSN:	0069-4789
Publication Status:	published or submitted for publication
Rights Information:	Copyright owned by Copyright 1981 Board of Trustees of University of Illinois
Date Available in IDEALS:	2007-07-02

This item appears in the following Collection(s)

- 1981: New Information Technologies - New Opportunities
  18th Clinic on Library Applications of Data Processing (1981). Edited by Linda C. Smith.

Statistics Report
