A Defence of the Digital Humanities Analysis of Literature: A Corpus-Stylistic Approach to the Bible-Related Words in the Fiction of Elizabeth Gaskell, the attitude to modernity is astatic.
Mary Barton, tidal friction uncontrollably starts the socio-psychological factor.
The Themes of Elizabeth Gaskell, heteronomic ethics, as is commonly believed, gives in-depth profile.
Cranford, ore, based on the fact that synchronously begins periodic catharsis.
Sylvia's lovers, the political process in modern Russia, in the first approximation, penetrates the asteroid.
Ruth, interval-progressive continuum form generates soil formation process.
