## Helminths of insectivores and rodents in Bulgaria.

Foreign Title : *Khelminti na nasekomoyadnite bozañnitsi i grizachite v B"lgariya.*

Author(s) : [Genov, T.](#)

Book : *Khelminti na nasekomoyadnite bozañnitsi i grizachite v B"lgariya.* 1984 pp ref.22pp. of

Abstract : The first part (pp. 1-258) of this book provides illustrated descriptions of species of helminths (28 trematode, 51 cestode, 5 acanthocephalan and 66 species) found in 25 species of rodents and 8 species of insectivores collected in different regions of Bulgaria. The taxonomic status of several groups of helminths is discussed and some changes are proposed. The 2nd part of the book discusses the life cycles of the helminths.

of rodents and insectivores in general and the phylogeny and taxonomic position of Insectivora and Rodentia within the mammals. The helminth fauna of each host is analysed and discussed under 8 sections: Erinaceidae, Talpidae, Soricidae, Muridae, Gliridae, Spalacidae, Muridae and Cricetidae. The final section of the book gives a zoogeographical analysis of the helminth fauna of these animals. Following this section, the insectivores and rodents found in Bulgaria are listed and an alphabetical list of the helminth taxa is provided. There are extended English (pp. 339-344) and Russian (pp. 332-338) summaries. Both give a list of new synonyms as follows: *Lecithodendrium dryomi* synonymized with *L. linstowi*; *Neoglyphe sobolevi* with *N. locellus*; *Rubensstrema soricis* with *R. exasperatum*; *Plagiorchis mentulatum* with *P. elegans*; *Skrjabinoplagiatorchis dogieli*, *S. ondatrae*, *S. obensis*, *S. skrjabini* and *S. morosovi* with *S. vigisi*; *Ditestolepis secunda* with *Insectivorolepis infirma*; *Echinoproboscilepis kedroviensis* with *Pseudodiorchis prolifer*; *Capillaria oschmarini* with *Thominx oesophagicola*; *Lecithodendrium ljamkini* with *L. depressa*.

Language of summary : Russian

Indexing terms for this abstract:

Organism descriptor(s) : Capillaria (Nematoda), Capillariidae, Cestoda, Enoplida, Heligmosomatidae, Insectivores, Longistriata, Longistriata depressa, Longistriata ljamkini, Nematoda, rodents, Trematoda, Acanthocephala (Gnathifera)

Descriptor(s) : cestode infections, helminthoses, Helminths, infections, Morphology, parasitoses, synonyms, synonymy, Taxonomy, trematode infections, animal parasites, nematodes, nematode infections

Identifier(s) : Adenophorea, animal-parasitic nematodes, Capillaria oschmarini, Cystodonta, Digenea, Ditestolepis, Ditestolepis secunda, Echinoproboscilepis kedroviensis, flatworms, Heligmosomatidae, Insectivorolepis, Insectivorolepis infirma, Lecithodendrium dogieli, Lecithodendrium linstowi, nematode parasites of animals, nematodes, nematode parasites of rodents, Neoglyphe locellus, Neoglyphe sobolevi, parasitic diseases, parasitic infestations, Plagiatorchis, worms, parasitosis, Plagiatorchiida, Plagiatorchis elegans, Plagiatorchis mentulatum, Pseudodiorchis prolifer, Rubensstrema exasperatum, Rubensstrema soricis, Skrjabinoplagiatorchis dogieli, Skrjabinoplagiatorchis morosovi, Skrjabinoplagiatorchis obensis, Skrjabinoplagiatorchis ondatrae, Skrjabinoplagiatorchis skrjabini, Skrjabinoplagiatorchis vigisi, systematics, Thominx oesophagicola, Trichocephalida

Geographical Location(s) : Bulgaria, Europe

Broader term(s) : Capillariidae, Trichinellida, Dorylaimia, Enoplea, Nematoda, invertebrates, eukaryotes, Platyhelminthes, Enoplia, Eucoleus, mammals, vertebrates, Chelmosomidae, Rhabditida, Chromadoria, Chromadorea, Longistriata, Balkans Europe, Europe, Developed Countries, European Union Countries
