Book

Title	Antennas : fundamentals, design, measurement
Edition	3rd ed.
Author(s)	Long, Maurice ; Blake, Barbara
Publication	Stevenage : The Institution of Engineering and Technology, 2009. - 527 p.
Subject category	Engineering
Abstract	This comprehensive revision (3rd Edition) is a senior undergraduate or first-year graduate level textbook on antenna fundamentals, design, performance analysis, and measurements. In addition to its use as a formal course textbook, the book's pragmatic style and emphasis on the fundamentals make it especially useful to engineering professionals who need to grasp the essence of the subject quickly but without being mired in unnecessary detail. This new edition was prepared for a first year graduate course at Southern Polytechnic State University in Georgia. It provides broad coverage of antenna
