### **Abstract:**

What I am looking at in this paper is the myriad configurations that the intermingling of fact and spin can take in cooking in the history of the western world. Indeed, it is Marius Cristian's endeavour (Cristian 2016) to delve into food and cuisine in several western civilizations, ranging from ancient Rome to the New World. Only once does he take a geographically prescriptive path - and he goes away to remote China to identify there yet another trail and origin of relevance.
