Abstract The international politics of the Middle East fills a major gap in the field of middle eastern political studies b will be of immense benefit to students of middle eastern politics, international relations and comparative p middle east regional system - the arena in which the local states, including Egypt, Turkey, Israrel and Arab s policy-making in key states, illustrating how systematic determinants contrain this policy-making, and how particular domsetic features of the individual states. Finally, the book goes on to look at the outcomes of stat conflict and the Gulf War, and the system of regional alignment. The book assesses the impact of internation formation of the regional state system. It also analyses the continued role of the external great powers, such [More](#)
