[Author FAQ](#)

Author's abstract: The Piscataquis River flows from its headwaters in Greenville, Maine south to the Abbot and Guilford area where it continues east to Howland at its mouth on the Penobscot River. The watersheds draining west and south to the river are included in a series of sporting camps. Development in this watershed began in the 1850s. What were the proprietors' lives like at these sporting camps? How did people get there? In what ways did the sporting camps change the landscape of these sporting camps?

Section B contents

- General access to and development on the watershed
- Travel from Bangor to the departure points of Milo, Broome Junction, and Katahdin Iron Works; and the development of these communities
- Sporting and private camps at: Ebeemee ponds; Big Hole area on the east side of the Barren-Chairback mountain; Pleasant Ponds, First and Third West Branch ponds, Murphy Pond, Pleasant River
