The massive, red, venomous snake was looking right at me. I held my breath. I didn't move an inch.

I was petrified. I remember thinking, "Why did I risk my life for this cup of tea?"

I thought my life was about to come to a very sudden and painful end.

The snake was flicking his tongue at me. He rattled his tail. That's when he jumped…

When I woke up, I was surrounded by an African tribe. They were playing strange music like I had never heard before. A few of them were taking care of me.

Finally, the tribe's Shaman gave me the cup of tea that would change my life forever.
Hi, I'm Liz Swann Miller. I'm a Naturopath and a best-selling Amazon author who has helped over 14,793 women and men reclaim their health, fitness, and happiness with the advice they needed to improve their physical well-being. As a professional weight-loss expert, I was ashamed and frustrated by the weight I'd gained after a difficult and complicated pregnancy. No matter which of my time-tested techniques I tried, I just couldn't get rid of pounds and pounds of stubborn excess fat! It was like I was a stranger in my own body, trapped in a shell I didn't even recognize anymore. The worst part was that I couldn't seem to do anything to get my life back to normal. I was disappointed, ashamed, and more alone than I'd ever been. I felt absolutely helpless. That all changed when I took a plane to Africa and discovered the delicious tea that made me burn body fat quickly and easily, without feeling hungry.
This recipe led to my life-changing fat loss: I shed 14 pounds in only 14 days. Now, you need to read this article until the very end, because I'm actually going to give you this revolutionary ancient tea recipe today. I then went on to cleanse-away an incredible 27 more pounds. That's 41 pounds all gone because of one cup of tea. It was all thanks to a bizarre legend my South African college exchange student had told me about when I was younger, a tale about a delicious red tea discovered in the remote African wilderness, and the Kenyan tribe who drank it to stop all the feelings of hunger. The legend said:

An African Shaman possessed an ancient recipe for a delicious red tea so powerful that whoever drank it felt unlimited energy – with no thirst and no hunger.

It sounded crazy, and yet I was absolutely dying to find out the truth. Could drinking this red tea really make someone never feel hungry? You can't buy this tea blend in the store because it's still mostly a secret. In fact, I'm literally the first person in America who's ever brought it back from Africa, and if I hadn't gotten out of that jungle alive, you wouldn't be hearing about it today. But don't worry, because you can actually find all the ingredients you need at any grocery store. You might even have them in your house right now. And the tea works like magic. You feel full, satisfied, and energized almost instantly, and your body will actually activate its natural ability to burn fat, a built-in superpower you might not have used in years. Additionally, absolutely anyone can use it! Regardless of your age, gender, or health. While you should always check with a physician you trust before making any life changes, this detox has been proven to be safe, effective, and simple. You can drink this tea to detox your body and shed 10, 20, 30, 40, 50 pounds or
more, just like I did. The difference in my body in just 14 days was truly astonishing: I lost 14 pounds in just two weeks. I can't even begin to describe the feeling of complete and utter relief as those first few pounds disappeared. When they kept coming off, I knew I'd found something special. In a matter of mere weeks, I dropped 41 pounds. That's right – 41! After years of struggling, I'd finally found the solution I was looking for! No more diet failures. No more guilt or remorse. With each pound I lost, I was one step closer to being happier, one step closer to my old self. I was back in my skinny jeans again. You can actually see me smiling – more slender than I've been in years – right in this picture from last Sunday at a family barbecue.
Without the fat-burning power of this mysterious tea, I can't imagine where I'd be today. It saved my sanity, it saved my health, and best of all, it saved my failing marriage. This is truly a life-changer.

That's why I'm so excited to give you this secret red tea recipe responsible for vanishing 14 lbs in just 14 days.

You see, my last pregnancy took a toll on me. After multiple complications, I was put on extended bed rest. I spent 80% of my day stuck in bed, and I was forced to give up the active lifestyle I loved so much.
Can you imagine being trapped in one room for weeks at a time? Being held back from pursuing your hobbies, your passions, and truly engaging with life? That was my world.

I became sluggish. I felt exhausted all the time. Eventually, I developed a sweet tooth, and I absolutely lost control of my weight.

I felt like a fraud. Here I was helping people all over the country lose weight and get the bodies they wanted while I was lying in bed looking worse than I ever have.

Honestly, I felt disgusted with myself, and even though my husband was very supportive, telling me he didn't care what I looked like, I knew deep down he just wasn't physically attracted to me anymore. I just wasn't the same person he had fallen in love with.

Finally, I knew it was time for a change and I decided to face the music. I reluctantly stepped onto the scale and, to my disgust, I saw that I'd gained 41 pounds. I couldn't believe it. I knew my weight had gotten out of hand but I had no idea it had gone this far. I couldn't face the world. I went back to bed and spent the rest of the day crying my eyes out.
If you've ever gained a lot of extra weight or felt like your body was simply out of control, I know how you feel. It can really make you feel both helpless and hopeless. Thankfully, I know there's a solution that works because I've done it. Plus, it's fast, easy, and it tastes delicious. Best of all, I lost every one of those stubborn 41 pounds... for good!

So, you can understand why I was willing to fly to Africa and go deep into the jungle to find this mysterious recipe!
ancient red tea recipe that stops hunger and shrinks fat cells!

Before I share this recipe with you, I have to give you a warning. Today, I'm going to give you this recipe to use as often as you want, but, to be completely honest, a lot of the information I'm sharing with you today exposes secrets that some people don't want you to know about. While I'll keep this site running as long as I can, I can't promise any miracles! So, if you're even a little bit curious about how this tea can change your body and shrink your fat cells, you need to read this entire article today!

I know this could be sounding pretty far-fetched to you right now. However, the truth is that all I did was drink this delicious red tea and do a few other simple things to shrink my fat cells! The unique combination of special ingredients in this tea literally unlocks your fat cells to help remove built-up toxins and reset your body's metabolism – and these are the two factors that are making it impossible for you to lose weight.

Best of all, I've found the science that actually backs it up! The days of feeling guilty about not losing weight are finally over. Isn't that what you really want?

You don't have to starve yourself or eat a bunch of flavorless vegetables to get results. Simply drink this delicious tea and enjoy the smart foods you love, and it's guaranteed you will drop pounds.

Right now, you're probably wondering why no one has ever heard of this tea before. The answer is incredibly simple.
In fact, the entire tribe thought I was crazy when I told them I wanted to lose weight. It's not a part of their culture to worry about losing weight, so they don't even realize that they're holding onto a secret that everyone in America is dying to get their hands on.

So, let me ask you this: Can you give me 14 days to cleanse away 14 pounds?

Imagine if you knew exactly how this ancient red tea could change your life in only a few weeks.

Imagine the relief of watching five pounds simply melt away in just five days.

Imagine the confidence you'll feel from walking into work wearing those jeans you haven't been able to zip up since your wedding.

Imagine the joy of seeing your spouse look at you the way he/she did so many years ago.

Imagine your excitement when just 14 short days from now, you step on your scale, look down, and see that you're 14 pounds lighter! Think about the excitement you'll feel when you see the real-life proof that you can lose this much weight.

And it was all so easy! All you did was drink this delicious red tea. Plus, you still got to enjoy delicious meals and even exercised a bit less, not more!

You can cleanse away fat. As much as you want. Anytime you want. It's all up to you, and you don't have to stop there.

Remember, it's not just about losing the fat either. This is about confidence. This is about freedom.

By taking control of your body, you're taking back control of your life. No more insecurity, no more indecision. Best of all, no more feeling helpless.

Few things are as empowering as feeling confident about the way you look. Honestly, even if you want to lose 20, 40, 60 pounds or more, I know this can work for you.
It turns out this red tea can give you the wonderful, confident, and happy life you deserve. Drink this tasty red tea and in only 14 days from now, you'll have kick-started your natural fat-burning system into overdrive, turning your body into a calorie burning machine. You'll look in the mirror and, for the first time in years, you'll see a big, unstoppable smile. You'll be thrilled, just like I was. You'll love the "new" slender-looking you. It's the slimmer and sexier body you've always wanted to see!

Up until now, I've only shared this revolutionary fat loss red tea recipe and my proven methods for cleansing fat away with my private clients, people who have paid me thousands of dollars. I've dedicated my life to searching the world to uncover "little-known methods" for helping people just like you lose fat – safely and sensibly – and keep it off. After falling into the worst shape of my life, I can personally say that this is by far the single best method for losing pounds quickly and easily. In fact, it was the only one that worked for me. It'll work for you, too!

Now, to speed your fat loss and as "a special thank you" just for reading my informative fat loss article, I'm giving you 5 NEW FAT-SHRINKING RULES. The rules will help you to detox your body and force your fat cells to open so you can release stubborn fat and shrink your fat cells. You can be cleansing away fat mere minutes from now.

Throughout my career, my books have helped countless men and women across the world improve their health, jumpstart their metabolism, and lose weight when other programs fell short. I'm thrilled when I see messages flooding my inbox from women and men just like you, thanking me for giving them this red tea recipe and the methods that
worked for them to cleanse away the fat when nothing else did.

Now you'll hear from just a few of my private clients who drank this delicious fat cleansing red tea that forced their body to pump out more fat-burning hormones and made their fat cells shrink—and stay shrunk.

The new smaller body measurements resulting from their fat cells shrinking were simply off-the-charts—amazing.

They found the one thing that let them hack into their own metabolism and jumpstart their natural fat-loss systems.

Additionally, the benefits go way beyond fat loss!

It has worked for everyone who's followed my advice. I mean it: EVERYONE (14,793 people and counting)

This includes Amanda, Dan, Melissa, and Emily, who took my advice and cleansed their fat away after they supercharged their own fat-burning systems.

Amanda H., age 57, from Topeka, Kansas, says,
“I’m back in my skinny jeans!”

“I lost 17 pounds and I’m fitting into jeans I never thought I would wear again. My husband tells me I look slender and sexy. I am very pleased with my results!”

Dan R., 42, an entrepreneur from Troy, Michigan, says, “I’m back in control & shed 42 pounds.”

“My business is hectic and everyday life is stressful, so I often do not feel in control. This has made me feel I can control my hunger and what I eat. I feel much more in control of my life, and I’m very happy with my fat loss!”
Melissa T., 47, who lives in Topeka, Kansas, had this to say: "I flushed away 32 pounds. Now I have a curvy waist and hips, right above my jeans! I feel fantastic. I'm so proud of what I did because my waist hasn't been this small since high school."

Emily A., a 32-year-old computer programmer from Miami, Florida, says, "My belly shrank! I've lost 16 pounds and feel great. I never felt hungry while drinking this tasty tea. I lost 16 pounds without much effort. I lost all the weight I wanted and I never felt deprived either."
You've heard from just a handful of the thousands of people who proved this is the one thing that worked to let them lose all the weight they wanted.

In just 14 days from now, you can have similar results, just like Amanda, Dan, Melissa, and Emily did.

Believe me, this tea is so powerful, you must read all the way to the end so you can get the secret recipe. Then you'll see that detoxing my body with this tea helped me shed 41 pounds and gave me the sexy, slender body you see now.
and lose 41 pounds of ugly fat without being hungry, you can too. I can help you.

You can achieve the body you've always wanted, the body you deserve!

Sometimes there are special moments in your life where everything changes for the better. This, right now, is one of those times.

I know you're probably sceptical, right? That's okay, but I can't stress this enough: YOU ARE NOT A FAILURE.

The “fat-loss science” you thought would help you lose weight failed you.
I should know.

I remember how it was when nothing in my closet fit me, when I knew nothing would look good on me. I'd buy baggy loose-fitting clothes. That way, no one could see my ugly rolls and bulges. I was so ashamed of my body that I even began undressing for bed in the dark so my husband couldn't see how fat I really was. It wasn't just his gaze that I was trying to avoid. I hoped and prayed every night that he wouldn't try to touch me. I couldn't bear the shame of him knowing what I'd become, even if it meant we grew apart because of it. As a result, we did. I hated it. Nothing I tried worked to lose the weight. No diet. No shake. No fat-burning supplements. No matter how much I starved myself. No amount of rigorous exercise ever worked to lose the fat either. So I suffered – for longer than I'd like to admit. All that is behind me now, and soon it will be for you too, all because I uncovered this ancient red tea recipe. And that's not hype. This red tea and the simple-to-follow detox plan that goes with it are rooted in sound scientific principles. Its fat cell shrinking effects are based on scientific research, and the latest discoveries on how fat burn is related to stress, proper hormone levels, adequate sleep, nutrition, and other aspects of the body's physiology… I'd love to help you lose the fat, if you'll let me, but first, let's take a look at 5 counter-intuitive principles of weight loss that traditional methods just don't cover.

The old rules of dieting have been telling you to eat less, so you end up feeling deprived and starving with tiny portions. Forget about that. Losing weight is not about deprivation; it's about detoxing your body and eating superfoods that burn up quickly, revving up your metabolism so you sizzle off calories all day and all-night long.

I'll show you how to detox and lose unwanted fat without willpower. You will Eat More and Weight Less. With the help of this amazing red tea recipe, you will never feel hungry.

The old rules of fat loss will be dumped in the trash can where they belong – and this leads us to our next rule.

NEW FAT-SHRINKING RULE #2: Reduce Stress, Lose Fat.

This new rule is about reducing your chronically high stress levels, a critical part of losing weight. I'll give you a few simple methods to quickly reduce your stress and a list of the best methods to restore hormone balance at the end of this article. You will feel calmer and weigh less.

Follow my advice and you will feel less stressed and release more body fat. It's true. Your stress is holding your body back. Very few people truly understand how chronically high stress levels do serious harm to maintaining proper levels of fat-burning and fat-storing hormones which are required for releasing and burning excess fat.

One study from the University of Florida found that chronic stress actually causes your body to start producing a protein called betatrophin. When this special compound is in your body, it brings critical fat-burning enzymes to a complete standstill.

That's just one vital reason why what you're about to discover is so revolutionary when it comes to safe and sustainable fat loss, in the way it works with your fat cells instead of fighting against them. Not only that, but you'll find out about how this red tea recipe, found deep in
the heart of Africa, not only reduces stress, it also stimulates your body's natural systems to work together and burn more fat, in less time.

So now you know that stress is a huge reason for your excess fat, but here's another big one, too:

NEW FAT-SHRINKING RULE #3: Eliminate Toxins, Drop Pounds.

Did you know that most of the processed food on grocery store shelves contains harmful substances? Most food manufacturers just don't give a damn that their food products are contributing to sickness and death for millions of people, even though they know for a fact how dangerous these chemicals really are.

The common food toxins found in processed foods include:

- Nitrates in processed luncheon meats
- Omega-6 fatty acids in oils from cottonseed, corn, soybean, safflower, and others
- Processed sugar and high-fructose corn syrup (HFCS) commonly found in soda
- GMOS or Genetically modified foods
- Residues from pharmaceuticals, manufacturing chemicals, and other toxins in meat, eggs, and dairy
- Pesticides and herbicides in conventionally grown produce and grain

When combined, all these toxic factors can result in low levels of fat-burning hormones and high levels of fat-storing hormones in the body, and this dreaded combination can sabotage your fat loss efforts and ruin your chances at having the slender body you want.

One study from Princeton University showed that a diet which included sweeteners like high-fructose corn syrup was associated with more weight gain than ones with the same level of natural sugars instead. It's not just how much you eat, it's what you eat.

That's why I was searching for a safe short-cut that would help my clients with an intense detoxification program to rid their fat cells of hormone-blocking toxins to unlock their natural ability to shrink fat cells.
This is why you've had such a hard time losing weight, even though you do everything right. No amount of exercise and dieting can help you lose weight if your hormones are preventing you from getting the body you deserve!

Toxins are all around us. They are in the soil, in synthetic materials, and in our homes. There are toxins in our water and even in the air we breathe. Pharmaceuticals, industrial chemicals, and pesticides in particular are often present in our water. Companies don't dispose of chemicals properly, people flush pharmaceuticals down the toilet, and pesticides seep into the ground soil every single day. As a result, these chemicals get into our water supply and, eventually, into our food.

This is also true about fertilizers and heavy metals like mercury, lead, and arsenic. They don't make you feel sick right away, but they do build up in your body over time. Most importantly, these toxins are making it impossible for you to lose weight!

One research study conducted by Uppsala University in Sweden concluded that there is a clear relationship between high levels of the environmental toxin PCB (a coolant and lubricant used in manufacturing) and the amount of body fat around the belly. Belly fat is known to increase your risk of diabetes and high blood pressure, among other dangerous conditions. One of the reasons your body holds onto fat is because it uses that fat as a "safe" storage facility for toxic compounds like pesticides and mercury. Your body naturally protects itself by holding onto both fat and water to mix the toxins with your excess body fat and water weight. This is how your body...
reduces the harm that toxins do. Unfortunately, it also means you're gaining a lot of weight you don't want!

That's why you should seriously consider detoxing your body. Research by Skidmore College exercise scientist Paul Arciero showed that detoxification can even reduce oxidative stress which has been linked to causing diseases like ALZHEIMER'S. That means that if you try to lose weight without detoxifying your body, you could end up with more oxidative stress and illnesses including Alzheimer's disease. This is actually part of the reason why losing weight is so difficult and even painful for so many people. Even our own bodies can produce toxins without us even knowing. If all these sources of toxins aren't properly taken care of, the build-up can cause critical hormone imbalances which may lead to serious health issues and weight gain, and could end in obesity.

Yes, it's true that 68.7% of Americans are overweight or obese. That startling statistic is partly due to the build-up of harmful toxins around us. One of the main problems with trying to lose fat (especially around your belly) is getting those stubborn fat cells to let go of the locked-in fat so the body can cleanse harmful toxins and flush fat away. The key to finally releasing this type of fat is:

4 NEW FAT-SHRINKING RULE #4: Rebalance Hormones, Release Stored
Due to cutting-edge research, we now know that the hormone 'Noradrenaline' may hold the key to unlocking fat cells and shrinking them— it's what causes the action of the incredible shrinking fat cell.

In a landmark study at the National Institute of Neurological Disorders and Stroke (NINDS), scientists discovered that "toxic molecules can accumulate in the space between cells" and can cause them to be larger in size. Meaning, the more toxins you have around your fat cells – the bigger they'll become!

Researchers at Karolinska Institute in Sweden then found that "Adrenaline and noradrenaline are the hormones that stimulate the breakdown of fat and toxic molecules. However, when nutrients are plentiful, fat cells become resistant to this signal and instead store more fat," as reported by Professor Carlos Ibanez at the Department of Neuroscience.

Noradrenaline is a stimulant hormone that signals your body to start using your belly fat for energy. The takeaway here? The more Noradrenaline produced in the body, the more pounds the body naturally sheds.

This red tea just so happens to boost Noradrenaline production! Everyone I've helped with my red tea lost a lot of weight because of it, with much of it lost in the hard-to-lose belly area. Results showed fat cell size and fat storing volume actually shrunk!
Noradrenaline was just one of the compounds I found in the red tea’s 5 unique ingredients. I’ll show you the clinical science of why this, along with the other 4 unique ingredients, works to shrink fat cells, but first, I’ll give you the fifth fat-cell shrinking rule.

NEW FAT-SHRINKING RULE #5:
Exercise Less, Lose More Weight.

Scientists have made astonishing discoveries, and a recent breakthrough is something scientists call the exercise “sweet spot.” Your sweet spot is the exercise intensity level where the full fat-burning power of your body is unleashed so your body draws on fat stores for fuel. You are not exercising harder. You are exercising smarter. Do this right, and fat layers under your skin vanish and excess pounds disappear. You can drop a dress or a pant size in two weeks as your whole body becomes firmer, sexier and trimmer.

Sadly, most people are eating too little and exercising too much, and this actually works against fat loss. When you’re over-stressed, your body’s ability to make enough fat-burning hormones rapidly declines. When you’re stressed-out, burning excess fat is even harder. That’s why I’m here to help you understand how drinking a tasty red tea, along with a few simple methods, will detox your body and easily balance all of your fat-storing and fat-burning hormones. Obtain the healthiest way to balance your insulin levels all by simply drinking a delicious fat-cleansing red tea. You’ll see how this red tea can literally force your fat cells to open and detox your body to quickly cleanse away all those extra pounds and inches. Sounds amazing, doesn’t it?

If you’ve been frustrated by your inability to lose fat and you’ve actually seen fat accumulate as you age, that’s the #1 sign that one or more of your body’s...
natural fat releasing and fat burning steps have been blocked!

Taking action is vital, especially if you're over the age of 35, like I am, and you're concerned about your health.

If you want to lose stubborn fat around your belly, butt, and thighs, and want to never feel hungry or unsatisfied, today is the day that stubborn belly fat (and the fat on your butt and thighs) starts slimming down fast and forever.

I don't even care how stubborn that belly fat has been, if you've always wanted to fit into clothing you've only dreamed about before, I'll show you how you can rebalance your fat loss hormones and unblock crucial metabolic fat-burning and fat-storing hormones and do it as easy as 1, 2, 3.

I'll give you the secret red tea recipe today so you can make it right in your own home with cheap ingredients from your own grocery store.

This delicious, zero-hunger, fat-burning red tea with incredible energy properties is about to be yours.

Before I give you the red tea recipe, I'd like to share with you the harrowing details of my real-life African adventure, and how searching for the “no-hunger” red tea from the ancient legend restored my health, revitalized the intimacy in my marriage, and, on more than one occasion, almost scared me to death!

It all started when my husband and I booked a flight to Africa, hot on the trail of this ancient red tea legend.

What was so incredible was that, not only did I find this African Shaman’s “no-hunger” red tea recipe, this tea has the most remarkable fat-cleansing action I've discovered in 15 years of traveling the world as a Medical Maverick. I've seen some truly mind-blowing fat-loss results, but this red tea is by far the most impressive and most incredible thing I've ever discovered.

I also discovered that this no-hunger red tea’s 5 unique ingredients are scientifically proven to trick stubborn fat cells to open and force them to release hard-to-lose fat, and to cleanse away years – if not decades – of unwanted fat.

You'll see exactly how these 5 herbal ingredients work in harmony to “speak instructions” from your brain to your fat cells to burn unwanted fat and shrink your fat cells without any feelings of hunger.
You'll hear about my exciting and life-threatening adventure, and all about how I obtained this ancient red tea recipe from a Shaman whose hut was perched on the edge of a 600-foot cliff, high above the parched African Savannah.

When I tried exercising to exhaustion to burn more belly fat, it had little effect on my fat loss.

I went to my doctor to find out why I couldn't lose the weight.

After my exam and looking at my lab test results he said: “Everything looks good. There's nothing wrong with you. I think you need to watch what you eat closer. Just stick to the medically prescribed diet I gave you. I also want you to exercise more often and longer. I'm sure if you follow the diet and exercise program correctly, you can lose the weight.”

As if that wasn’t enough, my marriage was on the verge of complete and total failure.

My husband and I weren’t anywhere close to being as intimate as we used to be, and I knew that deep down it was my own fault. I was pushing him away because I was ashamed of my body – because I felt like I was becoming a different person.

What’s worse was that he thought the same thing. I could tell by how he looked at me – or rather, the way he didn’t.

When I asked him about it, he said, “There’s nothing wrong.”

I knew better. Deep inside me, I knew he just wasn’t attracted to me anymore.

Now the one thing in my life I was sure of, one of the most fundamental things
to who I was, was in jeopardy. My doctor was lying and my husband was lying. Sadly, my scale was the only thing telling me the truth! Each time I weighed myself, the numbers were up, even as I ate less and less and exercised more and more. As you might have already guessed, I had a few other nagging symptoms that made me feel sick, like:

- waking up feeling tired even after sleeping 8 hours
- frequent headaches
- easily getting upset and feeling moody
- difficulty concentrating
- puffy swelling under the eyes
- cold hands and feet
- thinner eyelashes and eyebrows
- strong sugar cravings

Maybe you've had some of these symptoms too. If you have, then it's incredibly important you continue to read this article. I just might have the answer to all of your problems. Altogether, the nagging symptoms were causing me to feel tired, frustrated, and really hopeless. I was always hungry.
I craved sugary foods and drinks. I was having trouble trying to maintain my blood sugar levels. If I drank a couple of cups of coffee to wake up, I felt jittery. Even if I slept a full 8 hours at night, I felt like I needed a nap at 2 p.m. I knew something was seriously wrong with me, no matter what my doctor said. When I remembered this bizarre rumor about this no-hunger red tea, I was feeling miserable. I was 41 pounds overweight. So you can understand why I was extremely excited to find out more. I knew that if I could curb my hunger with it, I could easily lose the weight. That's why I was so eager – even desperate – that I was willing to fly all the way to Africa to find out if this legend was true. Yes, my marriage was in serious trouble. Before we went to Africa, I had to buy new, bigger clothes because nothing fit me. I knew if I didn't do something about the ugly rolls of fat on my body, I was headed for a traumatic, soul-crushing divorce. Our lack of intimacy was going to destroy both of us and the vows we swore to uphold until death do us part. During our trip to Africa, everything changed for the better! (I'll give you the details on that in a minute.)
After we arrived at the remote African village where we would start our journey, the first couple of nights were horrible. I felt like the intense African heat was suffocating me. I was so incredibly hot that I couldn't breathe. I was even on the verge of fainting when our translator told us that it was only going to get hotter by the end of our trip! I would wake up sweaty, covered in mosquito bites, and feeling awful. Daytime temperatures were well over 100 degrees and there was very little shade.
If I did manage to find some shade to sit in, thick swarms of biting black flies would viciously attack me. By the end of the trip, these nasty black flies had acquired a taste for me and I was covered in red spots that itched like crazy. It gets worse… much worse.

As we finally got closer to the remote tribe that guarded the red tea recipe, our guide showed us the trail we had to climb, which was the only way up. It was the steepest, most dangerous looking path I'd ever seen. It couldn't have been less than 15 stories of winding, jagged rocks and mud, all traced by a single green vine as thick as my arm. To make matters even worse, I was itchy, I was exhausted, and I was struggling to stay standing at all.

Our guide hopped onto the path. “It’s easy!” he shouted over his shoulder as he pulled himself up the trail using the thick green vine. I, on the other hand, was coming up with excuses to turn around. When I looked over at my husband, I saw a glimmer of hope. Hope that there might be something waiting for us both up that hill. Hope that this just might end up saving our marriage. I couldn’t turn away from it. Not this time.
As we climbed and climbed the hills, my muscles burned and my body ached. I’d never worked this hard in my life! Finally, on the verge of collapsing from exhaustion, I just had to take a break. That’s when the giant red snake decided to make me its dinner. It could tell that I was in no shape to run away. My husband tried to throw a rock at it, but that only made it angrier. It rattled its tail and looked me dead in the eye. It lunged at me, everything went black, and the last thing I remember was its enormous fangs gleaming in the African sun.

When I awoke what seemed like a lifetime later, I was surrounded by faces I didn’t recognize. I searched them all for answers but they only responded in a language that sounded ancient, and one that I didn’t recognize. That’s when I saw my husband and our guide push through the crowd, and a wave of relief washed over me. I tried to stand but I was still far too weak. The guide told me that, after the giant snake attacked, my husband leapt at the reptile with his bare hands, grabbed it mid-strike and, after a struggle, threw the viper over the edge of the cliff. It was by far the bravest thing he’d ever seen, the guide told me with a smile.

I looked at my husband, and he looked at me. We shared a moment that I’ll never forget. That’s when I knew I had to get better. For myself, and for him.
Then one of the villagers brought me a cup filled with the tea I had travelled so far to drink! After finally trying it, I knew that it was well worth the voyage. From the instant it began coursing through my body, I could feel it energizing my every cell, injecting new life into every limb. My exhaustion melted away almost instantly and I felt renewed, revitalized, and ready to take on the world! This red tea was unbelievably refreshing, and over the many days I drank it, I was never hungry. This common drink of the village completely eliminated my soda addiction. Other than water, it was the only beverage the villagers drank. (Which, I was told, was also why the women were all so slender.)
After a few days of drinking the red tea, I noticed I was sweating less. My breathing was easier, in spite of the intense African heat, which often rose to a scorching 105 degrees! Even though I had to climb a massive hill to get to the village every day, I actually had more energy than ever before. I started sleeping better, too, waking up more rested, refreshed, and actually excited to face the new day. I even noticed myself feeling more relaxed and calm (despite having to deal with all those flies). I was thinking clearer, feeling stronger, and finally seeing the world as it was meant to be seen. My stress had practically vanished and the anxiety that used to plague my days was gone completely. I was finally happy. Best of all, the weight was falling off me. Day after day, I noticed myself getting slimmer, stronger, and, more importantly, not feeling the urge to eat, even though I was burning through calories at an explosive rate. In fact, I lost almost 20 pounds that first month alone!
This red tea forced my body to lose the frustrating fat. That's when I knew I wasn't crazy for making this trip to Africa. In fact, it was probably the best decision of my life!

More importantly, I had to bring it back to America so I could share its life-changing power with people like you.

Here's the bad news: The villagers protected the secret red tea recipe and prized it like pure gold. It was a sacred part of their way of life and not just anyone was allowed to unlock its mysteries. Only the truly initiated could harness its power.

I asked Rose, my new friend from the village, if she would kindly give us the recipe. She said, "I'm sorry, but I can't give you the recipe. Only the village Shaman can do that. Only he has the power to entrust you with the ancient recipe."

In order to get to this Shaman, the path was once again going to be treacherous. We had to walk for fifteen miles and climb an even steeper trail for several hundred feet. There, at the top of the highest cliff, is where I could find the village Shaman.

What's worse, since the trail moved outside the cover of the trees and into
the simmering sun, Rose told us that the only way we'd ever survive the trek was by travelling in the cool of the night. Now, I'll be honest with you. Walking through the African bush in the pitch black, surrounded by lions, panthers, hyenas, and dozens of species of poisonous snakes and spiders scared the heck out of me. After all, I had already had one run-in with death; I sure as heck didn't want another! But, I was driven to keep going. I knew that this recipe would change the lives of thousands. It would bring hope to so many people that were lost, confused, and desperately seeking a way out of a lifestyle that was not only unhealthy, but would likely end up killing them in the long run. After experiencing the incredible effects of this magical tea firsthand, I knew I wasn't leaving this continent without it. Still, I was afraid. Fifteen miles is a long, long way, especially in the pitch dark with only a few torches for light. What could I do? Give up? I don't think so. After several hours and about twelve miles of steady hiking, I was getting tired. The humid air, the enveloping darkness, and the exhaustion from the difficult path caught up with me and, after a misstep, I stumbled. I fell sideways into a wet sandy hole. After struggling to get up and failing, the panic set in. I was sinking, and I was sinking fast. One of our guides was close by and quickly rushed over. He tried to pull me out but the force of the suction was too much! Then he vanished back into the bush. Was he running away? Was this how it would all end for me? Scared, alone, and literally being swallowed by the African sands? Then the guide emerged from the trees again, holding a large bundle of sticks. He placed them in front of me across the top of the sand in a path leading out of the deadly trap. "Now," the guide urged. "Push yourself out! It is the only way!" I pushed down on the path ahead of me with all of my strength. I strained, I screamed, and I labored with all of my being. Finally, I lifted myself out of certain death by sheer force of will alone. Once I emerged from that deadly pit, the guide grabbed me by the arm and dragged me out to safety.
"Bad place to fall!" he laughed. "Quicksand!"

Then he made a sucking sound with his mouth as he chuckled again.

I, on the other hand, wasn't laughing. My legs were shaking. I was exhausted. After my second brush with death, I was terrified.

Is it really worth risking my life for this recipe?

That's when we took a break. The villagers poured us some of the red tea while we rested.

It tasted delicious. It stopped my hunger and gave me the energy to keep going, even after hiking for miles and facing almost certain death.

Tasting the tea again convinced me that I wasn't crazy. I had to get this recipe. What's more, I could get this recipe! I had the strength. After all, look at how far I'd come!' After a few miles more, at long last we had arrived.

As we came upon the Shaman's home, a steady and rhythmic grinding echoed over the cliff. He lived in a solitary hut adorned with a variety of carvings, tools, books, and herbs. When he finally emerged from the tent, he
stared at us all with an intensity I'd never seen before. We immediately bowed in a sign of respect. One by one we offered him our traditional gifts in a ritualistic ceremony, just as our guides had taught us to do before we arrived. One by one, we were all met with his stoic and indifferent stare. It was then that Rose told the Shaman why I was here and what I had come for. When I saw his reaction, though, I didn't need a translator to tell me what he was saying.

He refused to give me the recipe! I was heartbroken. All my sacrifice, all my work to get to this point, was in vain. I had risked my life to get here! Now I had to go back empty handed? I refused! So I told the Shaman about what I'd been through, the countless miles I'd travelled, the gruelling trek to the village, the attack from the deadly viper, and the quicksand. Rose tried to keep up with the translation and matched my enthusiasm with her own. When I was finally finished recounting the tale, he held my eyes with his own for what felt like an eternity, his face emotionless and blank but his eyes searching.

Suddenly, the Shaman laughed. It was a surprisingly joyful laugh. He motioned for me to come closer. He placed the ancient bowl in my hands with the dried red leaves in it, called out into the void over the cliff, and traced some kind of symbol over my head.
At that, the Shaman turned away from us and started grinding red leaves again in that same steady rhythm, leaving the bowl of ingredients in my hand. While we were walking back down the trail, Rose stopped and pulled me aside. She whispered, “There’s a reason we’re on a cliff.” Was I about to be murdered for getting this tea? Rose could tell I was scared, so she quickly explained. “We keep the red tea at the top of this cliff so no one can find it. You don’t understand how important this recipe is to our tribe. You must have really impressed the Shaman!” I hugged her. I thanked her for the precious gift. As we hiked back to the village, Rose told me about the ancient history of the red tea. She said that the villagers drank it to feel “no-hunger” when they were out hunting. The women drank it to maintain energy throughout the day to help look after all their children. That’s when Rose took me to a special tea-making hut. There she showed me how to make this delicious red tea. The recipe was simple and easy to make. A batch of it lasted all day. My husband and I drank some and it gave us the energy we needed to celebrate our discovery that night, and rekindle our marriage. By the time the two months were up, I realized I’d detoxed from a lot of
processed, chemical-filled "fat-free food" my doctor kept telling me to eat. What did he know… I kicked my soda habit without even trying! What's even more shocking is that after my husband and I had spent two months drinking this delicious red tea several times a day, we lost weight easily. I lost 41 pounds, and he lost 37! It gave both of us the energy we needed to be intimate again, and to tell you the truth, our sex life has never been better!

Even more important is the fact that we are both so much more connected. We are more open, honest, and happier together than we have ever been. As our bodies became healthier, so did our minds. We were finally able to appreciate each other as much as we deserved. We've never been closer! We lost more weight drinking this red tea than we had ever done on any other diet.
The funny thing is it was easy to do because we never felt hungry. We just drank the red tea. When we did, we felt a surge of energy that lasted all day long. So this ancient legend about a "hunger-less tea" was absolutely true! We had finally found something that worked! I had bundled a large supply of this red tea to take with us back to America to maintain our higher energy levels and slender bodies, and I wanted to study it so I could recommend it for my private weight-loss clients, too. The truth is – you simply need to know the recipe for how to make this delicious red tea.
After I secured a new supply of this delicious red tea, my husband and I returned to America. I came back and was determined to unlock the secrets of this incredible concoction, so I teamed up with a research team from our local college and got to work. It took us several months of rigorous scientific research to confirm the test results.

We discovered all five ingredients worked in perfect harmony, with each herb contributing a specific action to:

- Force fat cells to open up and release harmful toxins that clog up fat cells
- Reduce stress hormones like cortisol that block the brain's fat-burning signals
- Allow released fat to be burned for energy and muscle growth
- Stop the feeling of hunger and cravings
- Cleanse released toxins and fat from the body

and much more!

All 5 unique ingredients worked together to effectively detox the body to cleanse fat away in as little as 4 hours.
When the red tea recipe is made according to the exact specifications in this program, 99% of people who drink it end up losing weight, an unheard-of rate! The clinical research proved that the unique herbal blend of this red tea makes it vastly different from anything you've had before. It detoxes. It purifies. It cleanses toxins. It forces fat from fat cells to be burned for energy. This red tea works to cleanse up to 14 pounds of fat away in as little as 14 days. I know it's scary, because those who are overweight have an increased risk of: All of these can be fatal. The combination of built-up toxins and a slowed metabolism is making you feel ill and overweight, and it's blocking your body's ability to burn stored fat for energy to feed your muscles. It's the real reason why you can't lose weight no matter what you try. You'll want to take action to end any toxic hang-ups your body may be experiencing right now, as it may be the root cause why losing weight is so hard for you. The five unique ingredients can help your body prevent the dangerous onset...
of pre-diabetes, heart disease, hypothyroidism, or the growth of pre-cancerous cells.

Now I'll show you just what makes this delicious African Red Tea so powerful and how to make the recipe. I call it…

In my private practice as a naturopath and best-selling Amazon author, I highly recommend *The Red Tea Detox* for anyone who wants to cleanse away excess fat, without feeling any cravings or hunger.

As a leading expert on nutrition, my books have helped 156,445 women and 107,989 men burn the fat, regain their health, and take control of their lives.
Now it's your turn to do the exact same thing.

I assure you, this red tea recipe and my detox methods have never before been revealed until today. Why not? Because these fat-burning tactics go against everything the medical establishment has told you!

I've seen dozens of clients struggle to understand why everything they've tried hasn't worked for them. They've suffered too many fat loss failures because their doctors are just like mine: unhelpful and absolutely wrong, telling them they aren't working hard enough when, in reality, they're doing everything they're supposed to do!

With The Red Tea Detox, losing weight doesn't have to be difficult. When you're on The Red Tea Detox, you'll be shifting from carbohydrate burning to high-octane fat burning. I have my clients enjoy this delicious red tea made with the five unique ingredients that work together in perfect harmony so that almost every one of them loses up to 14 pounds in just 14 days. They drink this delicious tea to:
Block uncontrollable hunger and cravings
Prevent mood changes and irritability caused by low blood sugar
Eliminate rebound weight gain triggered by skipping meals
Boost energy levels with no mid-afternoon energy slumps
You can cleanse fat away and drop pounds and inches by drinking a delicious red tea that is actually good for you.
As an added perk, my client's lab tests show better blood work numbers, including lower LDL, fewer triglycerides, and less blood sugar overall.
That's why you'll love how easy it is to unlock and release unwanted fat quickly, safely and powerfully.
Now would you do something for yourself right now?
Imagine what it would be like to look in your full-length mirror and finally love the body you see.
Imagine having enough energy to do something you've always wanted to do, but didn't think you could.
Imagine the confidence of walking into a room and knowing you're being
stared at for the right reasons. Now you can.

I'm going to make you this promise, cross-my-heart:

You can finally:
wear your favorite jeans from 20 years ago
have energy throughout the entire day
not get exhausted playing with your kids
not be bogged down with stress and anxiety
have the confidence and energy to have an intimate evening with your spouse

How can I make that cross-my-heart promise to you? Because I've been helping people just like you take back control of their lives and do the things they want to do for a long time.

I've given this delicious red tea recipe to my parents and siblings and they've lost fat rapidly, too.

Now I'll give you everything you need: the tea recipe, and over a decade of research that will show you all the ways your doctor is wrong and what the real truth is behind fat loss.

The Red Tea Detox Program includes the Red Tea Recipe and my simple-to-follow methods for detoxing to cleanse away the fat. I promise you that, once you try it, you'll say it's the most delicious way you've ever lost fat – all while never feeling hungry.

The Red Tea Detox Recipe is easy to make and the 5 ingredients can be found at your local grocery store for pennies. You might even have the ingredients in your house already!

It's common to lose 5, 10, or even 15 pounds in only 14 days while on the program. This isn't like any of the other diet programs you've tried. There's
no calorie counting, no calculating points, and no more bad food! It's all been figured out for you and you get to keep eating the food you love. It's as simple as 1-2-3.

You can experience the same dramatic fat loss, powerful energy, restful sleep, healthy hair, and smooth skin that my private clients enjoy. Want more details on the fat-shrinking effects? Here's the science:

Metabolic Enhancer # 1: The Fat Shrinker. This red tea contains Aspalathin, the incredible fat-cell shrinker. Aspalathin contains a unique bioflavonoid which reduces stress hormones that contribute to hunger and the storage of fat, while it increases glucose uptake to aid in the balance of blood sugar levels and insulin resistance. That means you'll feel more energized while you get thin, because Aspalathin has been shown to inhibit the production of new fat cells! Even more important, Aspalathin's powerful antioxidants protect the liver against damage, aid in reducing cholesterol, help regulate your blood sugar levels, and even improve your mood.

Now, it's important that this ingredient is mixed at just the right amount. That's why you'll need to download the recipe today and follow it exactly; otherwise, you won't get the results you want!

Metabolic Enhancer # 2: The Fat Storage Stopper. This 2nd unique ingredient has 4 different ways it helps with fat loss. It helps by decreasing calorie intake with a mechanism that works by blocking dietary fat digestion and then acting as an antioxidant and reducing inflammation. Plus, it increases feelings of fullness and enhances glucose and fat metabolism so you burn more fat while absorbing fewer calories! This is important because it means you can still eat plenty of food, and your body will simply take fewer calories, making it easy to lose weight.

Metabolic Enhancer # 3: The Fat Unlocker.
The 3rd unique ingredient can increase blood flow and stimulate the secretion of adrenaline to boost your metabolic fat-burning rate while it improves insulin sensitivity and lowers cholesterol. It is a great detoxifier and it even helps your digestive system clear food faster, keeping your whole-body cleaner.

Metabolic Enhancer # 4: The Fat Cleanser.

The 4th unique ingredient is a diuretic, so it promotes urine flow without altering the excretion of sodium & potassium, and it won't cause dehydration. This is critical to detoxing your body the right way! It promotes the functioning of the kidneys and liver and increases the amounts of various enzymes in the digestive tract so it helps improve digestion and cleanses the fat. Again, it's incredibly important that you use these ingredients in just the right amount. If you just mix them all together without the recipe, you won't enjoy the body detoxing, fat-burning, energy-boosting effects that you need!

Metabolic Enhancer # 5: The Hunger Killer.

The final unique ingredient in this red tea helps the body to metabolize carbohydrates more effectively. It has been shown to lower insulin resistance while stimulating metabolism, helping prevent increased fat storage by ensuring that lower blood sugar levels are maintained. This aromatic spice improves the speed of digestion and gives relief from gas and bloating too. It makes this red tea taste delicious, and it adds a powerful fat-burning boost!

The Red Tea Detox is the breakthrough many people who have been struggling to lose fat have been waiting for. A delicious red tea that means no more having to visit doctors that don't care about what you're going through and don't want to see you get better. No lectures about losing weight, no expensive pills, no starving yourself and no intense workouts. Best of all, it helps eliminate harmful fat by working with your body's natural fat-burning metabolism and doing it all without you feeling any cravings or being hungry!
Imagine enjoying the foods you love – steak, a beer, or even chocolate ice cream – completely guilt-free.

Imagine living a life free of expensive prescriptions and endless doctor’s visits to renew the pills.

Imagine feeling good and living your life without obsessing about every single calorie you eat, all while knowing your health could be protected by one of the most powerful natural healing teas ever discovered.

Let's see what Debbie, Liz, and Dr. Robinson had to say about The Red Tea Detox Program and how it worked for them to cleanse their fat away.

Debbie H., age 42, from Dallas, Texas, says, "I've lost more than 14 pounds in 14 days!"
"I lost almost 15 pounds, actually 14.9 pounds during my first 2 weeks on the program. I did a second round and lost another 11.5 pounds. I've never felt so much energy or been more healthy in my life!"

Mark T., 51, an Engineer from Hastings, Minnesota, says, "I lost 17.1 pounds. Try it, stick with it and you'll..."
I kicked my diet soda habit and got rid of my sugar cravings. The detox from sugar was easier than I thought. After reading the program I knew the amount of sugar I was eating each day was killing me! Now it's Day 14, I'm down 17.1 pounds. This works and it is the only thing that ever did it for me. I'd say, try it and stick with it because once you are thinner, life is so much better, and it's easier than you think!
Dr. Robinson, an MD from Tampa, Florida, says, "I'm recommending this to all my staff and patients." As a doctor, I've seen and heard it all. The red detox drink is tasty, and I'm not hungry. After trying it myself with my husband and seeing our lab numbers improve (triglycerides, blood sugar, blood pressure) I recommend The Red Tea Detox to my staff and patients.

Now you too can liberate yourself from your unwanted, unattractive and unhealthy fat without hunger and deprivation, without counting calories, and without exercising to exhaustion. All you have to do is heal your metabolism by detoxing your body and ridding it of harmful toxins.

Now, the entire Red Tea Detox Program is available for a single tiny investment of only $37. I simply can't keep this price that low for very long, so grab it at this incredible value right now while you still can. At this price, I'm getting too many customers for me to handle, and my website can hardly manage this many people, so I'm going to have to raise the price soon. Plus, we could be shut down any day now by the medical establishment that doesn't want you to know these secrets.
That comes with my 100% money-back guarantee. In fact, I'm so confident you'll love The Red Tea Detox Program that I'm offering my ironclad 60-day double guarantee! That means you have up to 60 days to decide whether The Red Tea Detox Program is right for you. If you don't love being thinner, having more energy, and looking better than ever before, simply ask me for a refund and I'll send your money back, no questions asked! You can feel good trying this today because The Red Tea Detox Program has helped my private clients detox their bodies and lose an average of 14 pounds in just 14 days for over three years now.
I want you to be completely happy. I promise you this can work for you if you try it and follow the program.

Now that you have nothing to worry about, go ahead and click the button below.

Look, I understand you may be sceptical about the fat loss results I've shown you today.

I was too, but that was all before I experienced first-hand what a red tea detox could do.

No other detox program contains these five unique ingredients that are scientifically proven to unlock stubborn fat cells, release hard-to-lose fat deposits, and cleanse fat away.

Your body uses multiple steps to release fat naturally. Even if just one step is blocked, your fat loss will grind to a halt. This is crucial the older you get because you are more likely to have one or more of these steps blocked.

The Red Tea Detox Program is 100% guaranteed to help you burn fat and lose all the weight you want.

You risk nothing because it is backed by my personal 60-day, no-questions-asked, 100% money-back guarantee.

So click the button below now to get The Red Tea Detox at this very special, limited-time-only price of just $37.
Do you understand what a great deal you are getting? How much would you pay to be thin and healthy for the rest of your life? I flew all the way to Africa to get this! Now you can have it for only $37.

All you have to do is click a button! This is your moment. You can keep doing what you're doing. You can stay stuck, feeling fat and miserable, or you can join the tens of thousands of clients I've helped lose an average of 14 pounds in 14 days. You can lose those pounds with the same amazing red detox tea I discovered on the hot arid plains of Africa that worked to lose the fat when nothing else did. I'm so grateful to have had the opportunity to meet the Shaman who gave
me this recipe, because he didn't just give me a cup of tea. He gave me my life back. He gave me the body I've always wanted. He even gave me back an intimate, loving marriage that would've fallen apart if it weren't for him!

It's time. You can start cleansing fat away mere minutes from now. Right now, The Red Tea Detox Program is available at an incredible value of $37.

You have 60 days to use it, enjoy the delicious red tea and green smoothie recipes, and judge whether it was worth your hard-earned money. Remember your complete satisfaction is 100% guaranteed. You have 60 days to get a no-questions-asked, 100% money back refund. I've seen this Red Tea Detox Program work over and over for my clients. You can get those fat-burning hormones and fat-storing hormones working for you instead of against you. Isn't it time you tried it?

Still with me? I know you may have a few questions, so I'll answer the most common ones.

**Question:** Why a red tea? Isn't green and black tea as good as red tea?

**Answer:** No. Black tea is actually burnt green tea and black tea is full of caffeine just like regular green tea. Even if you drink decaffeinated green or black tea, the decaffeination process destroys much of the natural ingredients. So, it makes more sense to drink a red tea that naturally contains no caffeine but still gives you energy.

**Question:** Does red tea really stop hunger?

**Answer:** The red tea’s 5 herbal ingredients work in harmony to end cravings.
and make you feel full to stop your hunger. That's why the native villagers call it the "no-hunger drink."

Question: Why is this red detox drink so special?
Answer: It's the perfect health drink. It's refreshing and tasty, hot or iced. It helps clear toxins, it reduces fat-storing hormones, and it promotes the production of fat-burning hormones while naturally reducing stress and balancing insulin.

I'm a naturopath, and I've spent years studying the benefits and side effects of each of the five unique ingredients that go into your red tea. Along with the powerful African red tea recipe, my detox plan is carefully formulated according to the latest holistic health and scientific research to maximize your fat loss during the 14 days of the detox.

The recipe contains these 5 powerful ingredients to create the ultimate metabolism-boosting, fat-busting, energy-revitalizing drink that's not found in green or black teas.

Question: Is it vegan and vegetarian?
Answer: It is caffeine free, vegan and vegetarian safe, dairy free, gluten free and sugar free. It's a great alternative to caffeine with absolutely no jitters, so cleansing fat away is safe and rapid. This red tea contains no fats or carbohydrates. The flavor is mild and slightly sweet. It has no oxalic acid, so there is no risk of kidney stones, unlike with black and green teas, and it has very low tannin levels so it's much better for you than green and black teas that have high tannin levels and can bind iron.

The tea is packed full of powerful antioxidants that fight oxidative damage caused by toxins in your body, 10 of which have been scientifically proven to have antibacterial, anti-parasitic, and antiviral action to boost your immunity.

So, drinking this delicious red detox tea does more than just halt hunger. It also helps you:

Lose weight to get the body you want
Finally get a good night's sleep so you can feel great and fight off disease
Produce and maintain energy throughout the day to play with your kids, spend quality time with your husband, and keep up with all of your active life's demands
Detox your body and protect your brain from neurodegenerative

7, 8
diseases like Alzheimer's

Lose fat and protect yourself from cancer, diabetes, and heart attacks

Reduce your hunger naturally and effortlessly so you are no longer a slave to your cravings

Spice up your marriage and ramp up the passion and intimacy in your relationship

Reverse harm caused by the many environmental toxins that have been building up in your body for years

Question: What powerful antioxidants are found in these five unique ingredients?

Answer: Quercetin may help protect the body from free radical damage. Luteolin can kill cancer cells and prevent tumor growth. It also contains a high-density lipoprotein (HCL) for good cholesterol.

It may also have beneficial effects on blood pressure by inhibiting the angiotensin-converting enzyme (ACE) to aid in protecting the heart.

Question: Are the ingredients for The Red Tea Detox easy to find?

Answer: Yes. You can easily find them in your local supermarket and health food stores. You can also buy them online. They won't cost you much at all.

Question: Do I need to be a good cook or have a lot of time to cook?

Answer: No. You should be able to make the delicious red detox tea and smoothies in just a few minutes. Every recommended meal is carefully designed for real people living real lives, with easy instructions.

Question: Why does this program cost so much less than other programs?

Answer: I'm so confident in the effectiveness of this program and the miraculous red tea recipe that inspired it, that I know it's going to be a huge success. Plus, I know what it's like to feel helpless when it comes to your weight, so I want to help as many people as I possibly can. Since I don't want the price to stop you from getting the body you want, I'm making it as affordable as I possibly can.

Question: Can I do this detox even if I'm older or have health issues such as heart disease or diabetes?

Answer: Yes! If you have a medical condition or physical condition, please talk to your doctor before starting this program. However, this is not a starvation or deprivation detox, and all the ingredients are safe, nourishing, natural.
superfoods.

Answer: Only one payment of just $37.

Question: Is my purchase guaranteed?

Answer: Totally! You have 60 days to try The Red Tea Detox risk-free. If at any time, for any reason during those 60 days, you are unhappy with the program, please email me at liz@redteadetox.com so I can refund 100% of your money—no questions asked. (I just ask that you give The Red Tea Detox an honest try.) And you can keep your free gifts! So go ahead and click the button below now and let's get started!
