## International Biophysics Congress (8th) Held in Bristol, United Kingdom on 29 July-4 August 1984. Final Programme and Book of Abstracts.

**Accession Number :** ADA223988

**Title :** International Biophysics Congress (8th) Held in Bristol, United Kingdom on 29 July-4 August 1984. Final Programme and Book of Abstracts

**Corporate Author :** BIOPHYSICAL SOCIETY BETHESDA MD

**Personal Author(s) :** Peachey, Lee D

**Full Text :** <http://www.dtic.mil/dtic/tr/fulltext/u2/a223988.pdf>

**Report Date :** 03 Feb 1986

**Pagination or Media Count :** 335

**Abstract :** The scientific programme comprised four plenary lectures, twenty- eight symposia with invited speakers and oral presentations. Session topics included: Chemical and electrical regulation of ion channels; NMR in vivo; Polymorphism and structural transitions

in nucleic acids; Food biophysics; Nucleic acid-protein interactions; Processing and control of visual information; Connective tissue and bone; Mechanisms of transport across membranes; Cytoskeleton; Chromatin structure and function; Structure of food biopolymers; Cross-bridge mechanisms and muscle contraction; Education in biophysics; Viruses; Folding, dynamics and solvation of macromolecules; Image reconstruction; Dissipative structures and pattern formation in biological systems; Photosynthesis; Medical imaging; Molecular evolution; Metal-proteins and electron transfer; Polysaccharides and glycoproteins; Electrostatic effects in protein function; Photo and auditory receptors; Applications of synchrotron radiation; Rheology of cell membrane; Electric field effects in cell membranes; Developments in microscopy; Environmental biophysics. This volume consists of abstracts of each days scientific contributions.
